Fifty-third session
Second Committee
Agenda item 94 (a)
Environment and sustainable development: Implementation of and follow-up to the outcome of the United Nations Conference on Environment and Development, including the outcome of the nineteenth special session of the General Assembly for the purpose of an overall review and appraisal of the implementation of Agenda 21

Draft resolution submitted by the Vice-Chairman of the Committee, Mr. David Prendergast (Jamaica), on the basis of informal consultations held on draft resolution A/C.2/53/L.25

Implementation of and follow-up to the outcome of the United Nations Conference on Environment and Development and the nineteenth special session of the General Assembly

The General Assembly,

Recalling the United Nations Conference on Environment and Development, which was held at Rio de Janeiro from 3 to 14 June 1992, and the nineteenth special session of the General Assembly for the purpose of an overall review and appraisal of the implementation of Agenda 21, which was held in New York from 23 to 27 June 1997,

Reaffirming that Agenda 21[1] is the fundamental programme of action for achieving sustainable development, and that the Programme for the Further Implementation of Agenda 21,[2] adopted at the nineteenth special session of the General Assembly, will enhance the full implementation of the outcome of the United Nations Conference on Environment and Development,

Recognizing that the Programme for the Further Implementation of Agenda 21 includes a statement of commitment to agenda 21 and the goals of sustainable development, an assessment of progress made since the United Nations Conference on Environment and

[2] Resolution S-19/2, annex.

98-37398 (E) 271198

Development in all main areas of Agenda 21 and other outcomes of the Conference, and recommendations on the future methods of work of the Commission on Sustainable Development and the programme of work of the Commission for the period 1998–2002,

Recognizing also that mutually supportive efforts at the national and international levels are needed in the pursuit of sustainable development, and that the gap between developed and developing countries points to the continued need for a dynamic and enabling international economic environment supportive of international cooperation, particularly in the fields of finance, technology transfer, debt and trade, if the momentum for global progress towards sustainable development is to be maintained and increased,

Noting with concern that the assessment and review of progress made by the General Assembly at its nineteenth special session concluded that although some progress had been made, especially at the local level, the overall trends with respect to global environment had not improved, and emphasizing that the implementation of Agenda 21 in a comprehensive manner remains vitally important and is now more urgent than ever,

Noting also the convening of the first Assembly of the Global Environment Facility in New Delhi from 1 to 3 April 1998 and the conclusion of the second replenishment of the Facility,

Noting further that the next review of the implementation of Agenda 21 is scheduled to be carried out in 2002 by the General Assembly,

1. *Stresses* the need to accelerate the full implementation of Agenda 21[1] and the Programme for the Further Implementation of Agenda 21;[2]

2. *Recognizes* that the Commission on Sustainable Development, within its mandate as specified in General Assembly resolution 47/191 of 27 December 1992 and the Programme for the Further Implementation of Agenda 21, will continue to provide the central forum for reviewing progress and for urging further implementation of Agenda 21 and the Programme for the Further Implementation of Agenda 21, and other commitments made at the United Nations Conference on Environment and Development or, as a result of it, for conducting a high-level policy debate aimed at consensus-building on sustainable development, for catalyzing action and long-term commitment on sustainable development at all levels, and for urging further implementation of Agenda 21;

3. *Calls on* the Commission on Sustainable Development to continue to undertake these tasks in complementing and providing interlinkages to the work of other United Nations organs, organizations and bodies acting in the field of sustainable development, to play its role in assessing the challenges of globalization as they relate to sustainable development, and to perform its functions in coordination with other subsidiary bodies of the Economic and Social Council and with related organizations and institutions, including making recommendations, within its mandate, to the Economic and Social Council, bearing in mind the interrelated outcomes of recent United Nations conferences;

4. *Emphasizes* that to achieve more substantive results by the next review of the implementation of Agenda 21 in 2002 will require concerted efforts at all levels, including by Governments, and calls upon all countries to fulfil their commitments of Agenda 21, and in this context calls upon developed countries to fulfil their commitments undertaken with respect to financial resources and the transfer of environmentally sound technology;

5. *Underscores* the importance of continued active and collaborative involvement of all relevant parts of the United Nations system in the implementation of Agenda 21 and the Programme for the Further Implementation of Agenda 21, and requests the Secretary-General, in close collaboration with all relevant parts of the United Nations system and

taking into account the outcome of the deliberations in the Commission on Sustainable Development, to submit to future sessions of the General Assembly for its consideration, through the Economic and Social Council in view of its coordination function, an analytical report on the measures taken within the United Nations system to accelerate implementation of Agenda 21 and of the Programme for the Further Implementation of Agenda 21, including identification of constraints and recommendations on how to address those constraints;

6. *Stresses* the importance of high-quality preparations for the forthcoming 10-year review of Agenda 21 and the Programme for the Further Implementation of Agenda 21, and requests the Secretary-General to submit to it for consideration at its fifty-fifth session a report on possible ways and means aimed at ensuring effective preparations for this review;

7. *Decides* to include in the provisional agenda of its fifty-fourth session, under the item entitled "Environment and sustainable development", a sub-item entitled "Implementation of Agenda 21 and the Programme for the Further Implementation of Agenda 21".
